

## Sangfor Endpoint Secure Required Network Accesses for Cloud Management Console

Dear valued customer:

Thanks for choosing Sangfor Endpoint Secure. Sangfor Endpoint Secure can help you enhance the client & server security protection, detection, and response capabilities against known & unknown threats.

If your Endpoint Secure management console is SaaS-based, specific URLs/IPs/ports are required to ensure the operations. This letter will clarify the URLs/IPs/ports information.

The URLs/IPs/ports need to be allowed listed below:

Domain Name	IP Address	Port	Functionality
x.sangfor.com	Dynamic via CDN	443	Management portal login
